CPT-GATE-B

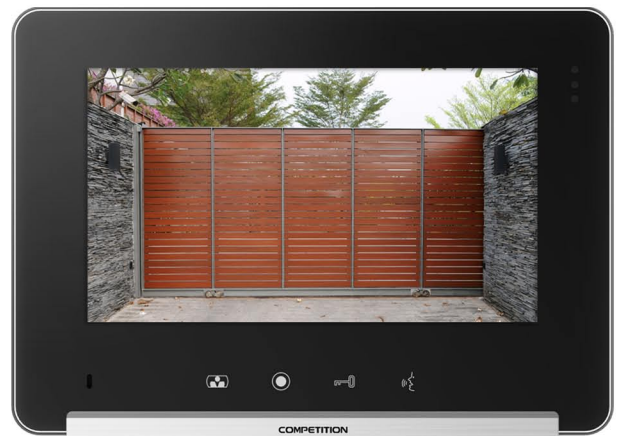

This discrete gate station is one of AAP's cost effective intercom options, designed for New Zealand's harsh weather conditions. It is perfect for residential premises with the ability to add two gate stations to any one system. Push the bell button for instant communication to the internal monitor or monitors

Dimensions: L130mm x W55mm x D40mm

CPT-MON-8B

This 7" aesthetically pleasing monitor is one of AAP's most popular seller's, with its functional & sleek design. The monitor has a built in picture memory function allowing the user to review visitors or intruders with a time & date stamped image. You can have up to 4 monitors on any one system, offering you the ability to communicate with other internal monitors

Dimensions: W208mm x H150mm x D18mm

WELL-LPV-20-15

All monitors require a 15V power supply. The Meanwell 15V 1.3A switch modepower supply is perfect for this system. It has a IP67 case & 100 - 240VAC input

Dimensions: L116mm x W34mm x D27mm
