

DH-HUB KIT GSM

Dahua AirShield Wireless Security System

App Control

With the DMSS app you can manage not only the security system, but also Dahua CCTV, Dahua Intercoms and access control. All can be handled remotely by the user-friendly mobile app:

- DMSS (For End Users)
- COS Pro (For Installers)

Visual Verification

Detectors can be configured to link with some IPC cameras for alarm verification via the DMSS app. A unique detector called DH-HUB PIR CAM has an integrated PIR sensor and camera, can capture HD photos upto 2MP and sent them to the alarm HUB in as fast as 10 seconds when the PIR detects motion.

Your Kit Will Include

Alarm Hub
DH-HUB (GSM)

Supports 150 wireless peripherals
(MAX 6 sirens, 64 wireless keyfobs).

Alarm PIR
2x DH-HUB PIR
