

DH-HUB PIR CAM

Wireless PIR-Camera

With its built-in 2 MP CMOS image sensor, PIR-Camera captures high-definition snapshots when it detects intrusions, transmitting them to the alarm hub, where they are then sent to the mobile app or alarm center (CMS/ARC) for you to perform visual alarm verification. The camera harnesses 2.4G RF-HD transmission technology to improve the resolution of images and the speed they are transmitted at. Built to keep you safe, the camera actively protects your privacy by only taking snapshots when an intrusion occurs.

Features

- Maximum resolution 1600*1200
- Transmission of 6 HD images with resolution of 1600*1200 needs up to 10 seconds
- One-week cloud cache for videos and images.
- Temperature monitoring.
- Sensitivity 3 levels adjustable
- AES128 Encryption
- Frequency Hopping Function And Two-Way Comms
- Cloud Update
- 3x CR123A Batteries
- 4 Year Battery Life
