

Plug In Power Supply

EC-PSU2  infinity series
powered by EliteControl

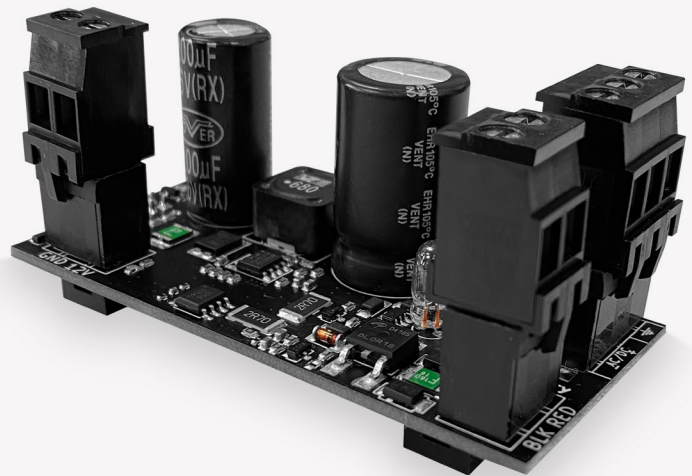

Compact plug in power supply for EC-A2, EC-Z8 & EC-O4 expander modules. Provides expander & peripheral products up to 1.4A of current with battery charging & back up

Each EC-PSU2 sends battery, AC & supervision status directly to the ESC control panel for local or central station monitoring

Features

- Input - 15-24VAC or 24VDC
- Output - Up to 1.4A @ 13.8VDC
- Battery charging - 250mA
- Dynamic battery monitoring
- AC monitoring
- Supervision from EC control panel
- Thermal output protection
- Passes power to primary board
- 5 year warranty
- Dimensions - 78 x 36 x 41mm

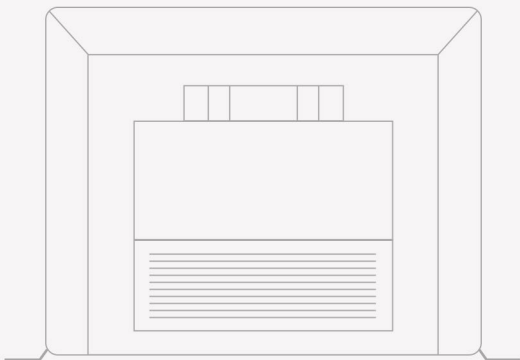

Plugs Into

EC-A2 | EC-Z8 | EC-O4

Recommended Power Supplies

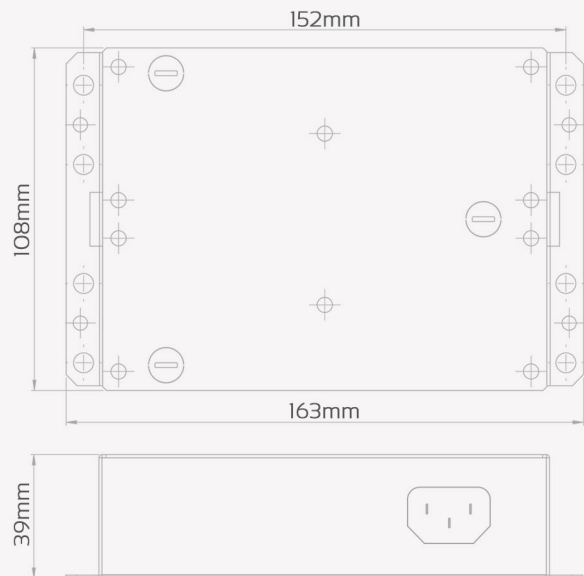

EC-PSU2  infinity series
powered by EliteControl

ELITE TRANS

- 17VAC 1.4A transformer
- Fits EC-CAB
- Ideal for EC control panel or EC-PSU2 power supply module
- Comes standard with EC PLAS & EC KIT products

EC-SCC PSU

- Enclosed 24VDC 2.2A power supply
- IEC socket for simple 230V connection
- Ideal power supply module for EC control panel &/or EC-PSU2
- Mounts up to two EC expander modules
- Mounts directly into standard structured cabling cabinets
- 5 year warranty

Optional Extras

- **EC-SCC PLATE**
SCC mounting plate for EC expander modules
- **EC-SCC BATT**
SCC Battery holder. Supports up to one 12V 7.5A battery
