

External Siren/Strobe

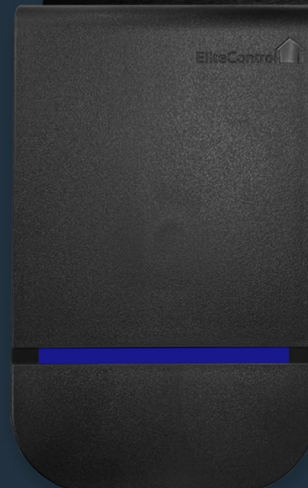

UV-stabilised 12V DC, available in charcoal or white

EliteAlarms

EC-SIREN

EC-SIREN B

Unlike conventional external alarm sirens the EC-SIREN features a sleek, slimline design that complements both traditional and modern architecture.

Available in white or charcoal, it blends seamlessly with a variety of cladding systems.

The white EC-SIREN suits lighter exteriors such as weatherboard and plaster, while the charcoal EC-SIREN B pairs perfectly with rendered stone, cedar and dark iron cladding.
