- EC-SIREN external siren/strobe
- 4C2-100-CU 4 core 0.2mm tinned copper cable
- 2 x OPT-FLX-S-ST pet friendly quad sensor

Control Functions

Up to 8 programmable outputs can perform control functions such as; garage doors, automatic gates, lighting, heating & more
Control can be utilised via the keypad, schedule functions, our additional remote kit or smartphone app for Apple & Android

Monitoring/Smartphone

Consider adding the plug-in network module (ESL-2 IoT) for app or monitoring, sending notifications straight to your smartphone. These alerts include sensor activations, panic, fire, mains failure, battery failure, restores & more

For land-line & 3rd party monitoring, consider adding the plug-in (ESL-2 DIAL POD). For land-line monitoring you can call up to 8 numbers sequentially. Alternatively you can configure the system for 3rd party monitoring, sending contact ID information to a monitoring station of your choice
Optional Extra

ESL-2 IoT (smartphone integration)
Stay in touch with your home or business with the innovative Elite Control app. Arm & disarm, control functions, live sensor status, history & more
