EliteControl Automation Applications

Simple wired & wireless solutions available to suit your requirements. No visible hardware & no ongoing costs

Functions above are controllable from your remote, alarm keypad or smartphone app. Time zones are also available to turn appliances on/off at selected times all year round

Discrete & Functional

Integrate With Your Alarm

The HM-MINI-12V is a discrete detector designed to connect with almost any alarm system, providing peace of mind over conventional battery powered smoke detectors

Intuitive Design

Simplify Your Alarm

The KP-TOUCH has an Intuitive user interface for smooth alarm operations, custom programming & review without the use of a manual. Fully customisable being able to select your own screen savers, backgrounds & home screen functions

Innovative Security

Arrowhead Alarm Products was established in 1986 with a philosophy to provide top quality security equipment with an emphasis on expert back up and support. The Elite security and control system is designed and manufactured in our purpose built facility located in Albany Industrial Park

On-site we have a specialised team of software and hardware engineers complimented by our lead free high speed pick and place manufacturing plant and multi stage quality control system. Each and every product we manufacture is also tested in house. This start to finish process makes us so confident that we put a 5 year warranty on every product we build

Our exclusive on-line technical support library and factory trained engineers provide unprecedented support for our loyal technicians
