IP Extender Over Coax

IP EXTENDER

Single Channel Passive IP Extender over Coax, perfect for many CCTV applications

The IP EXTENDER allows you to take old RG59 cable runs & convert them to a simple RG45 termination in seconds! This then allows you to run IP Cameras & NVR's (warning: non POE)

Features

- IP EXTENDER can be used on CCTV cameras, monitors, DVR's & other CCTV equipment
- Can run 4k Resolution at 10mbps
- Transmission distance up to 220m
- Passive device, no power required
- Built-in surge protection
- Easy to install
