

Wireless Driveway Sensor

K-Driveway Chime

Smart Detection. Reliable Security. Total Awareness.

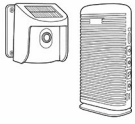

Kit includes

- 1 x DW9 PIR Motion Sensor (Transmitter)
- 1 x SP862 Receiver
- Mounting Accessories

The K-Driveway Chime delivers dependable outdoor monitoring for homes, businesses, and remote properties. Using advanced Passive Infrared (PIR) technology, this system detects movement with precision and instantly alerts you, whether it's a vehicle entering your driveway, a visitor approaching your shop, or unexpected activity around your perimeter.

Designed for continuous, dependable monitoring
