

Long Range Wifi

WIFI LR-CPE300P-KIT

Ideal for remote IP CCTV & IP Intercom
Solutions

Features

- 2.4Ghz
- Up to 300Mb/s
- Save Cabling Costs
- Supports POE Solutions
- Up to 1km Transmission Range
- Outdoor Ready

WIFI LR-CPE300P-KIT Functions & Features

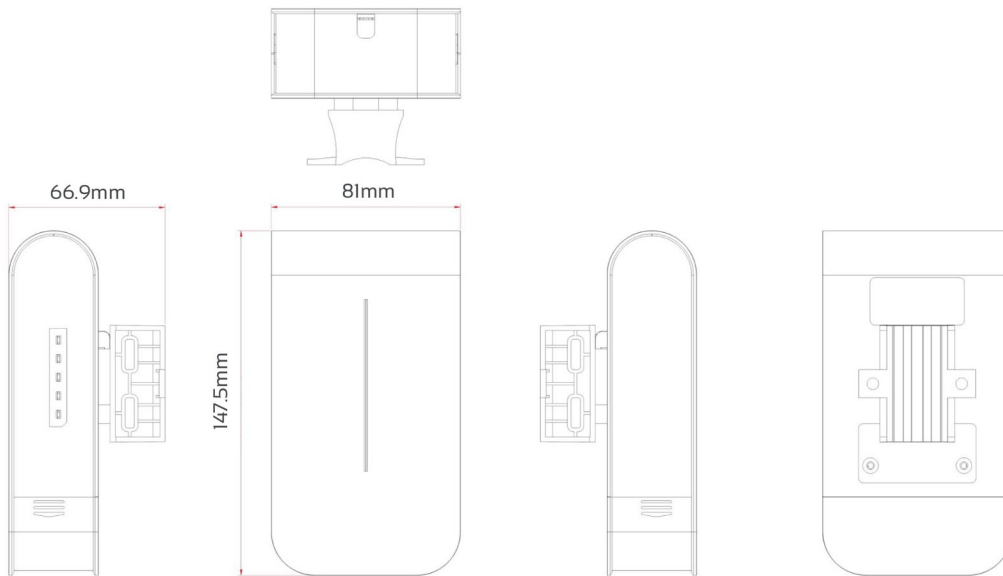

Contents

- Master & Slave Point to Point Modules
- 2 x Heavy Duty Cable Ties
- User Guide
- 2 x 48V POE Injector/Power Supplies

Applications

- Ideal for long range wireless connection of IP products to your network
- The WIFI LONG RANGE-KIT is capable of transmitting up to 8 x IP cameras wirelessly, making it ideal for remote IP intercom & CCTV applications where cabling is not an option

Product Dimensions

Specifications

FLASH	8Mb
DDR	64Mb DDR2
Working Frequency	2.4 ~ 2.4835GHz, 802.11b/g/n
Transmission Rate	300Mbps
Transmit Power	18dBi
Max Transmission Range	Up to 1km (max)
DDR	64Mb DDR2
Receiving Sensitivity	Up to 95dBm
Fixed Port	1*10/100M 48V PoE PD port(Data/Power) 1*DC5521 12VDC power port
Reset Switch	Yes, Press for 20 seconds and release to restore factory settings
Antenna	Built in directional dual polarised antenna, 8dBi gain, horizontal angle 60 degrees, vertical angle 30 degrees
Power Consumption	<3W (standby) / <5W (full load)
IP Rating	IP61, dustproof, waterproof, adaptable to various harsh environments
Dimensions	L147.5mm x W81mm x H44mm
