HM-FW-915

The HM-FW-915 works in conjunction with AAP's ESL system. If you are retrofitting smoke detectors in your home & cabling is not an option, the HM-FW-915 will meet your requirements. The smoke detector works on Freewave Protocol, offering a low battery warning at 7.5 volts. For installation of the detector you will require the RX-16 MF349 wireless receiver

Compatible with
ESL KIT-7
