

Arrowhead Alarm Products Ltd

# The future is here!

“Fibre to the Door” is rolling out nationwide. High speed internet is here now! Unleash the full potential of your Elite-S with the exciting new IP-Module. Using the Arrowhead IP-Module and the direct connect IP-Loom you can customise your security system to fit your lifestyle.

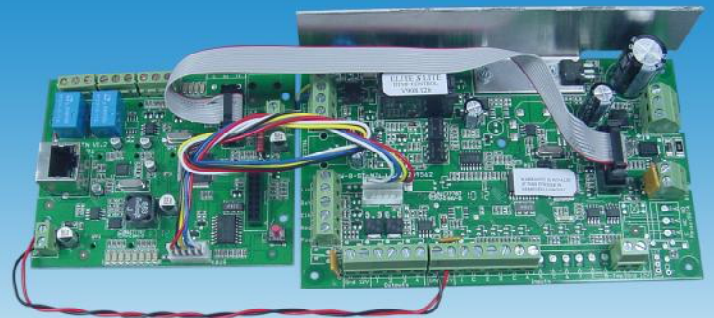

IP-MODULE

Use your smart phone or desktop PC as a virtual online terminal to:

- View and control Arm status
- Operate doors and gates
- Turn on & off lights, heating and many more home automation options.
- View recent events, great for knowing a family member has made it home safe or when they left and armed the alarm system.
- The IP-Module will also allow you to have your alarm system monitored through the internet for super fast and reliable communication to a monitoring station.

## Elite S with IP Control

Proudly Designed and Manufactured in NZ
