

Arrowhead Alarm Products Ltd

Elite S Series Security System

Proudly Designed and Manufactured in NZ

Securing your home, family and business is important to you. Striving to design the perfect alarm system is important to us.

The ELITE S security system by Arrowhead Alarm Products Ltd is designed and manufactured in New Zealand to give you a flexible, user friendly, secure environment. Whether you are away or at home, the ELITE S will integrate with your home or business to meet your security requirements. The dedicated 'STAY' button allows you to easily arm areas of the property without having to remember several codes i.e. whilst in bed, all entrance ways can be armed, preventing intruders from reaching you and your family.

The inbuilt digital dialer can be used to report any alarm activations off site to a 24 hour monitoring centre, or up to 8 different personal phone numbers of your choice. Other options include a voice module to alert you with clear custom messages of specific locations and/or types of alarms.

Using your cell phone or landline, you can remotely access your ELITE S alarm panel to control certain functions. These include: Receiving status reports, arm/disarm functions, controlling household items such as air conditioning, lighting, pumps, even doors and gates.

The intelligent dialer system will go as far as calling to inform you that selected users have disarmed the system. This could include your partner or children, to let you know they have arrived home safely. Smart, attractive and reliable remote controls are available to provide extra functionality and flexibility with your ELITE S security system. Remote buttons can be programmed to control simple system operations such as: Arm/disarm functions, lighting control, gates, garage doors and much more.

Elite S Series Security System

Another entry alternative is proximity tag access. The ELITE S security system allows for proximity readers to be connected directly to the panel. This allows for controlled access to your home or business, whether your desired entry is internal or external.

We stock a variety of different detection devices for the ELITE S security system. Flush mount reed switches can be discretely mounted to doors and windows. Shock and glass break sensors can be utilised to detect intruders before they enter your home or business. A range of perimeter beams have been designed to alert you before the intruder has even entered your property.

For families that love animals, there are a range of pet friendly sensors available for you. These sensors allow for your pets to roam free inside the house without disturbing the ELITE S security system. This gives you peace of mind without the hassle of false alarms.

Another feature that is often overlooked when it comes to alarm panels is smoke detection. Smoke detectors can be installed to work with the ELITE S security system. The ELITE S will notify you, your family, neighbours and even monitoring stations in the event of a fire.

Many features of the ELITE S security system can be made automatic with inbuilt scheduling facilities. These include: Programmable holiday periods and self arm/disarm functions at any specified date or time.

Using the ELITE S scheduling facility, business owners can relax knowing that their premises will be armed and protected after hours. Staff can have controlled access to selected areas of the building.

Features

- 5 year warranty on New Zealand manufactured products
- 8/16 alarm zone inputs (these can be hard wired or wireless)
- Up to 100 pin numbers or proximity tags can be used for access control
- Up to 80 remote control buttons can be used to operate the ELITE S security system
- The ELITE S can be divided into 'two alarms'. These are commonly known as areas or partitions. For example: The garage can be armed while the house is disarmed.
- Monitoring and control via a touch tone telephone
- Electronic control of up to 7 doors (these include, but are not limited to: Garage doors and gates)
- 255 recorded events, date and time stamped
- 8 programmable outputs
- Time zones for automatic operations or restrictions. This includes up to 8 holidays with an additional day light saving feature
- 'Minder alert' technology advises you when a specified user is operating the panel
- 'Keypad control' allows you to operate lighting, garage doors, gates etc at the touch of your alarm keypad

E16LED-KP
16 ZONE LED KEYPAD, GREEN BACKLIGHT

SS-1C
EXTERNAL POLYCARBONATE SIREN AND STROBE
AVAILABLE IN 2-WAY WIRELESS & HARDWIRED

KP-LED-OEM ST
16 ZONE LED KEYPAD, GREEN BACKLIGHT

PS209-R
INTERNAL ROUND FLUSH MOUNT PIEZO SIREN

KP-ICON
16 ZONE ICON LCD KEYPAD
AVAILABLE IN 2-WAY WIRELESS & HARDWIRED

TRX INTERNAL
INTERNAL 2-WAY WIRELESS
SURFACE MOUNT PIEZO SIREN

KP-ICON-OEM
16 ZONE ICON LCD KEYPAD

TRX OUTPUT
ALLOWS DRIVE WAY GATES AND GARAGE DOORS TO
BE CONTROLLED WITHOUT ANY WIRES FROM ALARM

ELITE S LCDKP
FULL LCD DISPLAY WITH CUSTOMISABLE ZONE NAMES
BLUE BACKLIGHT

RM-8003
4 BUTTON WIRELESS PENDANT
AVAILABLE IN 303 & 915MHz

KP-LCD-ST7OEM
FULL LCD DISPLAY WITH CUSTOMISABLE ZONE NAMES
GREEN BACKLIGHT

RM-8006
4 BUTTON WIRELESS PENDANT WITH SLIDE COVER
AVAILABLE IN 303 & 915MHz

PW READER
WEATHER PROOF PROXIMITY CARD/TAG READER

RM-0001A
4 BUTTON WIRELESS PENDANT, WITH SLIDE COVER
AVAILABLE IN 433MHz ONLY

PW READER 2
PROXIMITY READER ONLY
WITH A & B CONTROL BUTTONS

TX-LIGHT
1 CHANNEL WIRED TRANSMITTER, IDEALLY INSTALLED
IN A VEHICLE TO CONTROL A GARAGE DOOR

PW READER-AAPNZ
WEATHER PROOF PIN CODE
AND PROXIMITY CARD/TAG READER

PROX CARD
PROXIMITY CARD SUITABLE FOR USE WITH THE PROX
READER RANGE

SWAN QUAD
QUAD ELEMENT 90 DEGREE PIR DETECTOR
PET FRIENDLY UPTO 25KG

PROX TAG
PROXIMITY TAG SUITABLE FOR USE WITH THE PROX
READER RANGE

CRTL360
QUAD ELEMENT 360 DEGREE PIR DETECTOR

MON KEYBD-U
NIGHT ARMING STATION

SWAN 1000
DUAL TECH QUAD ELEMENT PIR + MICROWAVE
MOTION DETECTOR, PET FRIENDLY UPTO 25KG

DROP BOLT
DOOR ACCESS LOCK, THAT CAN BE INSTALLED IN
THE DOOR FRAME FOR ELECTRONIC CONTROL

SWAN CAM-PAL
QUAD ELEMENT 90 DEG. PIR DETECTOR PET FRIENDLY
+BUILT IN COLOUR 420TVL PIN HOLE CAMERA

STRIKE LOCK
DOOR ACCESS LOCK, THAT CAN BE INSTALLED IN
THE DOOR FRAME FOR ELECTRONIC CONTROL

DFW PIR
WIRELESS QUAD ELEMENT 90 DEGREE PIR DETECTOR
PET FRIENDLY, AVAILABLE IN 303, 433 & 915MHz

RX-16MF349
RADIO RECEIVER CARD, ALLOWS WIRELESS DEVICES
TO BE ADDED. COMPATIBLE WITH 303, 433 & 915MHz DEVICES

VST-SMOKE
SMOKE DETECTOR, WITH BUILT IN PIEZO
AVAILABLE IN WIRELESS & HARDWIRED

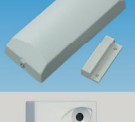

VOICE BD STD
ALLOWS VOICE MESSAGES TO BE RECORDED &
PLAYED BACK OVER PHONE ON ALARM EVENTS

VST-HEAT
RATE OF RAISE HEAT DETECTOR, WITH BUILT IN
PIEZO, AVAILABLE IN WIRELESS & HARDWIRED

USB D-LINK
USB PROGRAMMING CABLE, ALLOWS ELITE S SYSTEM
TO BE PROGRAMMED FROM A PC

FW-MAG9F
WIRELESS REED SWITCH

CS-47NZ
CELLULAR BACKUP FOR ALARM PANELS,
CAN BE USED IF THERE IS NO PHONE LINE

CRGBDII
GLASS BREAK DETECTOR

IR BEAMS
FOR POINT TO POINT OUTDOOR PERIMETER
PROTECTION INDOOR VERSION ALSO AVAILABLE

ARROWHEAD ALARM PRODUCTS Ltd.

344b ROSEDALE Rd,
ALBANY,
AUCKLAND 0632
NEW ZEALAND
www.aap.co.nz

Arrowhead Alarm Products was established in 1986 with a philosophy to provide top quality security equipment with an emphasis on expert back up and support.

The Elite Security System is designed and manufactured in our purpose built facility located in Albany industrial park. On site we have a specialised team of software and hardware engineers complimented by our lead free high speed pick and place manufacturing plant and multi stage quality control system.

Each and every product we manufacture is tested in house and this start to finish process control makes us so confident that we put a 5 year warranty on everything we build.

Exclusive technical support library on line and factory trained engineers providing unprecedented levels of technical partnership.
