

USB A-LINK

The USB A-Link is a specialised Arrowhead Alarm Products USB to Serial connection cable. It allows AAP software to communicate with AAP hardware.

Compatible Hardware:

- ESL/Elite-S/Elite-S Lite/Runner
- Elite 16D v6/PW-16
- Elite 8D/Alert 8D/PW8/Elite-Lite
- Elite 64/PW64
- AC2W
- IP-Module/ESL-2 APP POD

Compatible Operating Systems:

Windows 2000, XP, 7, 8, 10 & 11 (drivers may be required)

Setup and Installation:

1. go to (www.aap.co.nz/alink) and download the USB A-Link Driver
1. Choose the Driver to match your operating system/CPU type and run the .exe file.
2. When installation is complete, plug the USB D-Link into one of your PC's USB ports.
3. Now Install the software for the product you wish to connect to. Download the software from (www.aap.co.nz/alink)
4. Once software is installed, go to ([setup/communication/source](#)) and choose the (**Direct via COM?**) That has been assigned.

For Updating IP-MODULE & ESL-2 APP POD please got to:
