USB D-LINK

The USB D-Link is a specialised Arrowhead Alarm Products USB to Serial connection cable. It allows AAP software to communicate with AAP hardware.

Compatible Hardware:
>   ESL/Elite-S/Elite-S Lite/Runner
>   Elite 16D v6/PW-16
>   Elite 8D/Alert 8D/PW8/Elite-Lite
>   Elite 64/PW64
>   AC2W
>   IP-Module/3G-IP-Module

Compatible Operating Systems:
>   Windows 2000, XP, 7, 8 and 10 (drivers must be installed)

Setup and Installation:
1.   go to (**www.aap.co.nz/usb**) and download the USB D-Link Driver
2.   Choose the Driver to match your operating system/CPU type and run the .exe file.
3.   When installation is complete, plug the USB D-Link into one of your PC's USB ports.
4.   Now Install the software for the product you wish to connect to. Download the software from (**www.aap.co.nz/usb**)
5.   Once software is installed, go to (**setup/communication/ source**) and choose the (**Direct via COM?**) That has been assigned.
