

## Remote Kit for ESL & ESX Systems

*Contents: 2 x infinity remotes & 1 x infinity link*

infinity series long range wireless allows installers to specify professional, correctly positioned products without excessive labour, unpleasant trunking or conduit. With up to 500m range, almost any site can be accurately secured

The infinity remote can perform up to 4 alarm functions including arm/disarm, garage doors, gates, lights & more. Each successful alarm operation is positively confirmed via haptic vibration, accompanied by an indicator LED

### Features

- Modern design
- Up to 500m range
- Up to 5 year battery life
- Battery low monitoring
- 1 x CR2032 battery (included)
- infinity 2 way encrypted wireless protocol
- Haptic feedback & multi colour LED indication
- Recessed buttons to help prevent false pressing
- Plug in infinity link module with optional terminals
- Add up to 80 remote buttons per infinity link module
- Keychain included with each infinity remote

### Compatibility

ESL-2 or ESX v2 control panels. Can also be used in conjunction with infinity output (coming soon)
